## Excellent performance

Faller Packaging receives the European Carton Excellence Award 2022

**Faller Packaging has been awarded the European Carton Excellence Award (ECEA) 2022. The manufacturer of folding cartons, package leaflets, labels and combination products for the pharmaceutical and healthcare industries received the award for its PleioFlow RF packaging solution. The ECEA is Europe's most prestigious award for carton packaging.**

Faller received the award in the "General Packaging, Virgin Fibre" category. The jury praised the PleioFlow RF device packaging, designed to transport and safely store surgical equipment. It complies with the complex regulations for medical devices. PleioFlow RF meets the strict standards for packaging and microbiological barrier systems used in operating theatres.

Each part of the packaging plays a significant role in adherence to these standards: The outer carton secures the contents properly during transport. The carrying device keeps the unit in a stable position and free from damage, ensuring safety and functionality. Surgeons can quickly and conveniently remove the contents from the package without compromising the product's sterility. The unique design allows medical professionals to quickly open PleioFlow during surgery when it has to be ready for use.

"We are very proud to have received this award," said Dr. Daniel Keesman, CEO of Faller Packaging, at the ECMA Congress 2022 award ceremony on September 15 in Krakow, Poland. "This award is proof of the efficiency of our development work and underlines our competence in the field of pharma & healthcare. We have shown that we work in a customer-oriented way with our solutions and create innovative, unique designs," he added.

Every year, the European Carton Excellence Award recognises and promotes a wide range of skills and innovative solutions in the paperboard industry. The gala was organised by the European Carton Makers Association (ECMA), an international network for paperboard processors, national associations and suppliers to the paperboard industry.

### **About Faller Packaging**

For more than 30 years, Faller Packaging has specialised in tailor-made, full-range solutions for secondary packaging materials for the pharmaceutical industry. The company is a single-source supplier that develops and manufactures folding cartons, package inserts, labels and combination products and delivers both standard products and special solutions based on customers' wishes. Digitalised, optimally harmonised processes ensure maximum efficiency, sustainable production and fast, reliable delivery times. In addition, Faller offers customised logistics services and supply chain concepts. As a result, the company is an expert partner for everything relating to the procurement and packaging of pharmaceutical and healthcare products.

In addition to its headquarters in Waldkirch in the German state of Baden-Wuerttemberg, Faller Packaging also has sites in Binzen, Großbeeren and Schopfheim as well as in Hvidovre in Denmark, Łódź in Poland and Debrecen in Hungary. The Worms-based subsidiary PackEx, which was founded in 2018, specialises in the manufacture of folding cartons in small and very small batches. In collaboration with the Irish company Perigord Premedia Ltd., Faller has set up a "Global Centre of Packaging Excellence" for artwork management, print consultancy and coordination. In total, August Faller GmbH & Co. KG has more than 1,300 employees.
