Faller Packaging at Pharmapack in Paris

Spotlight on sustainable and clever packaging solutions

Pharmapack (January 24 and 25, Paris) is one of the most important meeting places for the pharmaceutical packaging and drug delivery industry. Faller Packaging is focusing its trade fair presence on the topic of sustainability. At stand D39 in hall 7.2, everything will revolve around resource-saving and clever packaging solutions for the pharmaceutical industry.

The specialist for folding cartons, labels and leaflets will present its sustainable packaging strategies for biopharmaceuticals, sterile products and fibre-based monomaterial concepts at Pharmapack.

The packaging experts accompany their customers throughout the entire development process, from the initial idea to the finished product. Together, they analyse the requirements for secondary packaging properties. With its partner Uhlmann Group, Faller Packaging advises its customers along the entire value chain, providing them with holistic support during the transition to sustainable secondary packaging.

Faller Packaging will also present its PrePackaging Service in Paris. Together with its cooperation partner, the machine manufacturer Schubert-Pharma, Faller Packaging will accompany its customers on a PrePackaging Service journey, from launch to series production – and the company also provides support for rapid market entry following approval.

Yet another highlight at the Faller stand: Smart Labels with temperature or light indicators for the simple and safe use of medicines that require refrigeration or are light-sensitive.

Smart Labels from Faller Packaging: Printable temperature or light indicators on the labels increase the user-friendliness and safety of Self-Application Medicines.

About Faller Packaging

For more than 30 years, Faller Packaging has specialised in tailor-made, full-range solutions for secondary packaging materials for the pharmaceutical industry. The company is a single-source supplier that develops and manufactures folding cartons, package inserts, labels and combination products and delivers both standard products and special solutions based on customers' wishes. Digitalised, optimally harmonised processes ensure maximum efficiency, sustainable production and fast, reliable delivery times. In addition, Faller offers customised logistics services and supply chain concepts. As a result, the company is an expert partner for everything relating to the procurement and packaging of pharmaceutical and healthcare products.

In addition to its headquarters in Waldkirch in the German state of Baden-Wuerttemberg, Faller Packaging also has sites in Binzen and Schopfheim as well as in Hvidovre in Denmark, Łódź in Poland and Debrecen in Hungary. The Worms-based subsidiary PackEx, which was founded in 2018, specialises in the manufacture of folding cartons in small and very small batches. In total, August Faller GmbH & Co. KG has more than 1,400 employees.
